Professional Profile

UI and Web designer with more than two years of experience in the field through teaching workshops to high school students and creating personal projects for both web and mobile devices.

Experience

UI Designer

2021 - 2023

Sollertia

In charge of teaching the UI Design workshop course at the Sollertia school, I promoted the Design of websites or mobile applications as an aid to the proposed solutions of each student, promoting the use of their creativity

- Teach basic UI design principles
- Create sketches that will help with future designs
- Design websites and mobile applications in Figma and/or Adobe xd
- Verify that the design meets the requested needs

Web Designer

2021 - 2023

Sollertia

In charge of teaching the Web Development workshop course at the Sollertia school, I encouraged the creation of websites previously designed by each student, promoting their logic and creativity through the use of HTML tag code and CSS styling language

- Teach basic Web design principles
- Know how UI designs serve as a basis for future designs made with web code
- Create web designs with HTML
- Add styles with CSS to previously made designs

Web Developer

2018 - 2019

Universidad Peruana Unión

I implemented the monitoring module for students in the process of pre-professional internships in the PPP system of the Universidad Peruana Unión

- Prepare the analysis of the module, follow-ups of students in the internship process
- Develop the monitoring requirement for students in the internship process
- Implement the monitoring requirement for students in internship exam
- Develop the monitoring requirement for students in internship final
